

REMARKS

Claims 31-37 and 51-66 were pending when the Office Action was mailed. The Office Action rejected all claims. Applicant has amended claims 31, 51, 58, and 65. Applicant has not canceled or added any claims. Thus, claims 31-37 and 51-66 remain pending.

Applicants do not concede the merits of the rejections, but nevertheless amend claims to expedite prosecution.

All claims were rejected under 35 U.S.C. § 102(e) over U.S. Patent No. 6,677,894 ("Sheynblat"). Sheynblat is directed to providing location-based information. Claims 31-37 now recite "the first Internet data includes information the server computing device can use to determine a geographical position of the mobile computing device." Claims 51-57 now recite "the server further configured to determine a geographical position of the mobile computing device based on the first Internet data." Claims 58-64 now recite "determining a geographical position of the mobile computing device based on the first Internet data." Claims 65-66 now recite "to determine a geographical position of the mobile computing device based on the Internet data." The Office Action does not indicate that Sheynblat teaches or suggests at least these features.

Based on these amendments and remarks, applicants respectfully request early allowance of this application. If the Examiner has any questions or believes a telephone conference would expedite prosecution of this application, the Examiner is encouraged to call the undersigned at (206) 359-6478.

If additional fees are due, please charge our Deposit Account No. 50-0665, under Order No. 320528065US2 from which the undersigned is authorized to draw.
